

Athletic Academic Probation

At the time of progress reports, a student who is failing one or more classes with a 60 or below, or has a cumulative average below 73 will be placed on probation. A student on probation may participate in 1 sport as long as they have an academic plan in place and as long as they are following the academic plan. Academic plans include the following:

1. Attending tutoring for all subjects the student is failing
2. Making consistent progress in class -- turning in all assignments and homework, passing quizzes and tests, and having good behavior/participation grades during class time
3. Any other accountability actions the student's teacher(s) and or principal feel necessary.

A student will remain on probation until the next report card period. At that time, if the student's grades meet eligibility requirements, they shall be removed from probation. If the grades don't meet eligibility requirements, the student will be disqualified from all sports until the next marking period. At that time, the student's grades will be reevaluated for eligibility.
